

## STEP 1 | QUICK VIDEO

Watch this [3 min video](#) to get the most out of your Color Analysis photos

### For Best Results:

- Take all pictures by a window or outside (no direct sunlight or shadows)
- Ensure skin is in its natural state (free of colourings like self tanner)

## STEP 2 | GET PREPPED

- Put on a white shirt
- Pull hair fully back and off face
- Remove makeup, glasses, hat, etc.
- Cover coloured hair with a white scarf

## STEP 3 | TAKE PICS

### 3-5 Photos of Face

Multiples help us to confirm

### 3 Photos of Eyes

- Close up of eyeball** - Try to avoid any glare - ([Example here](#)).
- Entire eye** - Shape and curves
- Close up of face** - both eyes visible

### Inside of Forearm

- Picture from elbow to wrist

### Photos of You Over Time

If possible include 1-2 from each decade, in natural light. Indicate if hair is natural or dyed in each picture.

- Before puberty** (prior to age 17)
- Post puberty** (in your 20's)
- In your 30's** (if applicable, and so on)

### Don't have pictures over time?

Describe your natural hair colouring and any characteristics (freckles, easily flush etc.) for each age range.

## STEP 4 | SEND EMAIL

### Make sure:

- Images represent your true natural colouring as it appears in-person in natural daylight.
- All images are JPEGs
- All images together don't exceed 20MB

### What to include:

- Description of your natural hair colour (now and in your 20's)
- Photos: all 4 categories: face, eyes, forearm, over-time

Send Email To: [info@carolbrailey.com](mailto:info@carolbrailey.com)

## STEP 5 | PAYMENT

Complete the payment process so your Color Analysis can begin!
